## 9. GENERAL INFORMATION

These do not form part of the policy wording but are for your guidance:

### Basis of sum(s) insured

Building sum(s) insured should be based on the cost of rebuilding your property to the same specification including garages, outbuildings and permanent fittings (see the definition contained in the policy). Plus an amount of approximately **15%** to cover demolition costs and architects and surveyor's fees.

Market value is not necessarily an accurate indication of rebuilding costs.

Contents and personal belongings sum(s) insured should be based on the full cost of replacing all the property insured without allowance for wear & tear and depreciation except for clothing household linen and pedal cycles.

If the sum insured is inadequate at the time of a loss, then your claim settlement may be reduced.

If you add to the value of your property (for example, by extending the building or buying new furniture or other contents) The Company must be notified as, that your sum(s) insured can be adjusted accordingly.

We draw your attention to the sum insured conditions under the Buildings Contents and Personal Belongings Sections of the Policy:

### Automatic increase in sum insured

Building Contents and Personal Belongings sums insured can be made subject to this clause, to provide a good measure of protection against inflation provided that your sum(s) insured are correct at the outset.

However, in your own interest you should review these regularly.

The Company must be notified if your home is to be left unoccupied for more than 45 consecutive days, for which an additional premium may be required if we agree to extend the unoccupancy period.

### Safety Precautions & Useful Tips

#### FIRE

- Smoke detectors save lives. Protect your home and family by installing a detector. which, senses the smoke from developing fires and sounds a loud warning alarm.
- Ensure gas fittings are regularly maintained.
- Avoid storage of gas cylinders/bottles inside the house.
- Ensure extractor or exhaust fans are not left to run continuously.

- 
- Do not let children play with matches or fire.
  - Check electrical plugs and leads regularly. Do not overload electrical circuit.
  - Be cautious when replacing a fuse on your electrical panel. Never substitute a higher ampere fuse when a lower ampere one is called for, because it could pose a fire hazard.
  - Avoid “octopus outlets”. Clusters of wires and plugs means your electrical system can’t cope with your energy needs. It may be time to rewire and add more outlets.
  - Be careful not to use a bare light bulb in a closet. A 100-watt bulb can generate a temperature of 150° C (302° F). That’s a fire hazard.

### **BURST PIPES**

- Protect all exposed water pipes.
- Make sure that all taps are tightly closed to prevent wastage of water.
- Make sure that the mains are closed when you are going away on a holiday.

### **THEFT**

- Make sure you have good quality locks fitted on your entrance doors and all accessible windows.
- Do not leave the keys under a mat or any place where they can be easily found.
- Do not keep large sums of money/cash at home.
- Do not leave valuable property in unattended vehicles.
- Photographs of valuables or copies of valuations are helpful in the event of theft or loss.

### **MAKING THE MOST OF YOUR INSURANCE**

- Photograph or videotape all your belongings and keep a record of their serial numbers and receipts where applicable. If you ever have to make a claim, your visual record of the missing or damaged items will make the process much easier.
- Whenever your circumstances change - for example, if you buy a new home or a valuable belonging - remember to review your coverage and update it if necessary.
- Try to remember to pay your insurance when it’s due. If you do not, your insurance policy may be cancelled. If you find that it isn’t convenient for you to pay by cheque, you may be able to arrange for a pre-authorized payment.
- A deductible is the portion of a claim that you have to pay. Your deductible should be affordable, so that you can pay it should a claim occur.
- If you cannot pay your insurance premium, you should contact your insurance

---

provider before the account falls into arrears and you no longer have insurance protection. Sometimes, an extended payment period can be arranged, or an alternative payment method may be available.

- Whether you're a tenant or an owner, it's advisable to have liability insurance. You may be responsible for any damage that you may cause to someone else's property. For example, if your bathtub overflows and floods the neighboring apartment or condominium unit - or a burst pipe in your garden floods your neighbor's garage - you may be held liable.
